DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 17 November 2008, have been fully considered and are persuasive. The rejections of claim 98 has been withdrawn.

Allowable Subject Matter

2. Claims 98-109 and 112-129 are allowed.
3. Claim 98 is allowable. Claims 99-109 and 112-129, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions 20-39, as set forth in the Office action mailed on 22 May 2008, is hereby withdrawn** and claims 99-109 and 112-129 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
4. The following is an examiner's statement of reasons for allowance:

a. Regarding claim 98, the prior art of record does not teach or render obvious a printing group of a printing press having all of the structure and functionality as described, including first and second waterless planographic printing plates on a plate cylinder, a blanket on a transfer cylinder adapted to receive an ink image from each waterless planographic printing plate, a printing blanket end receiving opening located opposite a first set of adjacent printing plate ends, and a depression formed as a groove in a coating of said printing blanket located opposite a second set of adjacent printing plate ends, the depression having a depth of between 5% and 15% of said coating thickness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo T. Hinze whose telephone number is 571.272.2864. The examiner can normally be reached on M-F 8-5.
